REISSUE DECLARATION UNDER 37 C.F.R. § 1.175

I, Tor Slettnes, with the citizenship, residence, and post office address as listed below, do hereby state and declare as follows:

1. I believe I am the original, first, and sole inventor of the subject matter which is described and claimed in U.S. Patent No. 6,040,586, and in the above-identified reissue patent application.

2. I hereby state that I have reviewed and understand the contents of the above-identified specification, including the original patent claims, and the claims in the Preliminary Amendment filed herewith.

3. I acknowledge the duty to disclose information that is material to the patentability of this reissue application in accordance with Title 37, Code of Federal Regulations, Section 1.56(a).

4. I believe that U.S. Patent No. 6,040,586 is at least partially inoperative because I claimed less than I had the right to claim in the patent. Independent claim 16 recites "An apparatus for scanning a plurality of channels comprising" Scanning "a plurality" of channels, however, is not required by certain embodiments of the invention, and the broadly claimed apparatus should encompass apparatuses for scanning "one or more" channels. Accordingly, new independent claim 26 recites "An apparatus for scanning one or more channels comprising"

5. The above-described error and all other errors corrected in this reissue application arose without any deceptive intent.

6. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
